

EVAN KARWOWSKI

Brentwood, CA | evankarowski@gmail.com | (925)813-5546 | [LinkedIn](#) | [Github](#) | [Portfolio](#)

SKILLS

- HTML and CSS
- Python
- JavaScript - Node.js, Express.js, React.js, Next.js
- PostgreSQL MongoDB
- Git and github

PROJECTS

Bussin Bagels [GITHUB](#) [LIVE](#)

Browser game

- Created an interactive browser game using vanilla JavaScript and Canvas.
- Implemented hit detection for objects being interacted with.

Fillow [GITHUB](#) [LIVE](#)

Real Estate App

- Built a full-stack application with user authentication and CRUD functionality. This was made with Node.js, PostgreSQL, and Express.js.
- Worked with mapbox API to show the exact location of the property.

A Day in the Life [GITHUB](#) [LIVE](#)

Social Media App

- Worked with a team of 3 to build a full-stack social media application using React, MongoDB, and Node.js while utilizing a git workflow.
- Used Cloudinary API to upload and pull images from the database.

RELEVANT EXPERIENCE

SOFTWARE ENGINEER APPRENTICE

GENERAL ASSEMBLY

Remote

January 2022 - Present

- 12 week full-time (60+ hours/week) immersive full stack software engineering bootcamp.
- Applied engineering best practices such as testing, deployment, version control, code maintenance, documentation, and responsive design.
- Collaborated with peers to pitch, devise, and build products during coding sprints, leveraging project management tools and version control tools.
- Developed 5+ full-stack applications using web technologies and tools such as JavaScript, Python, React, Node, Express, Next, PostgreSQL, and MongoDB.
